

Transitional Living Program

**Educating and Equipping Young Adults
to Achieve Independence**

**EMPOWER.
DEVELOP.
ACHIEVE.**

Through guidance and direction, youth achieve independence. By gaining workforce readiness and life skills, working on and off-campus internships, and living in a stable home environment while pursuing degree certifications, life stories are positively rewritten everyday.

Nationally, over a 10 year period, more than 300,000 youth lived without the support deemed necessary for moving from childhood into adulthood. This number includes but is not limited to youth coming from the foster care system. (Annie Casey Foundation)

ELIGIBILITY

- Ages 17-20
- Eligible to work in the United States
- Physically, emotionally, and medically able to meet program requirements
